About Us

Cumbria is a big county, with birdwatching sites ranging from estuaries and sea-cliffs, through lakes and reedbeds to oak woodland and open fell tops.

*Dotterel, North Pennines, 2 June 2023.
Chris Hind.*

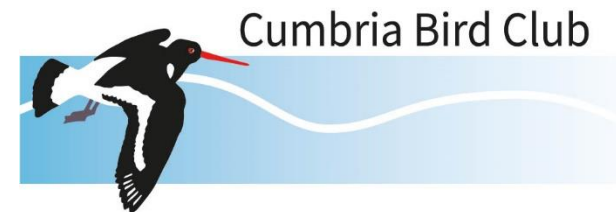

Cumbria Bird Club brings together people from all over the county to share their experiences and love of birds and birdwatching. We try to help newcomers learn more about birds and contribute to the research needed to conserve both local and national birdlife.
